17th day
Year of Setting Out
Consolidation

Salam Alaikum

Dear Comrade,

Last night we moved towards our freedom and again it was denied, but not for a lack of effort on our part. We were betrayed from the outside, the material sent to us was no good and the people out there didn't take care of their end. It is by the grace of Allah ^{None} ~~that~~ of us got killed, we will be charged with attempted escape, kidnapping, assault on an officer and probably a few other things. Had the people outside took care of their end or at least giving me the correct material we'd have been long gone before the news would have gotten out. What could have been and what is, fact if people work together towards an objective it can be accomplished, until we purge our ranks of snakes, liars, and other's of that type we will continue to suffer setbacks. ~~There is no doubt that we will continue to suffer setbacks.~~
~~There is no doubt that we will continue to suffer setbacks.~~ Do you think it wrong to kill someone like that? We believe Kuratu betrayed Red, we

also know who betrayed Sha. Do you think P.O.W.'s are too demanding, look at it objectively and what we're suppose to be about, the nature of guerrilla warfare, how the peoples forces must always be audacious. There are some pigs from outside in here, looking around, last night was a trip, one day i run it on you what they did to us. I got rid of all my picture's and letter's, the only thing i have is a picture of lil Nick which i got last Wednesday, he wrote me a letter which i destroyed, so i have no papers, addresses. Your sister said he is doing good in school, she went and spoke with the teacher seems he's been acting up since Christmas vacation; i spoke with him saturday and told him how much we love him and that he should study and try not to be back. It's hard for him i do, which brings to mind an idea we've been kicking around, the need for our own collectives that educate our children and care for them. I understand some of the structure i sent out has is being implemented. Curtis has the whole structure. Yours

sister is going to have a baby, Alhamdulillah. I ask your forgiveness, you were right about me being petty, man overlooks a lot of good done for him and see's only the things that are negative. You too have a right to live and enjoy life, so do the children and if I love you & them then your welfare and happiness should be my first consideration. You've got that and may you always have that. Me, Herman, and Rubin were indicted for Ingleside, seems someone told the grand jury I help plan it. Rubin is here in New York in Westchester County jail, we're expecting him to testify. Nick got the shoes and Nicky's letter, on reflection I see he's always been a good brother, we must learn to except people as they are and not how we should want them to be, give him my sincerest regards, also enclosed (never mind that) just remembered I told Curtis to pass it to you about B. J. Asato still has some paper's on the structure and soon as I can. My love to the Comrade and tell them we'll try again, again, again, and again until we're free. The only thing I ask from y'all is

that you dare to struggle dare to win, overcoming all obstacles, surmounting all difficulties. Your New perspective on the struggle is something I've heard from many other's i have no quarrel with it just long as people work towards implementing a strategy for victory. The people can relate to liberating P.O.W.'s just like they can relate to pigs being offed, we just have to be consistent in practice which can only come from organization that geared towards armed struggle, it, it will take dedication, self-sacrifice and faith. Take care of yourself & the children, i won't be calling Ntsh for awhile but i'll still write.

Revolution Until Victory
Ntsh

These Dragons here are real soldier, we moved swift, unfortunately there are only dragons in here in the pits, a general view not directed at no one in particular. The spirit is strong and we won't stop struggling until we're free - as a people.

The reason a contradiction maybe developing between Comrades inside and out is we're not getting any cooperation, you, the sister and brother's are the only one's to come forward, Kuwese did the same for Ntse, when you look at those who aid with their hearts, and faith in struggle the number is few, we're not to demanding comrade, but revolutionary guerrillas like yourself, the sister, and bloods not theorist. All theories must be tested in practice. The people win victories in their own way's it is the revolutionaries who sward the victories, it is them not acting for fear of failure that creates the lack of success, Allah is perfect, mankind strives for it through trial & error. It is our fear of failure that holds us back, yet if we had a unity of will & action collectively we would succeed because we'd learn from our failure to be better prepared on the next move, thus victory in defeat. It may be subjective but all of us are to a degree, he said nothing unfavorable about

the Brother, we are trying through struggle to purge ourselves of negative traits one thing I know Vic is cool under fire and is righteous in watching his Comrades back, he's learning but like most needs understanding and love, our unity is stronger now then before, we help and listen to each other, we are far from perfect but we try.

Once in another life time a man told me the race goes not to the swiftest nor the fight to the strongest but to the one who endureth to the end. I will endure.

You NO I never complain to the courts about my treatment nor to one pig about another, that's the way I am. Waiting for justice from the just, I have always avenged those brutalized by bullies and the state, NO one changed Cies, or Chango, Fred, none of the Comrades that's another reason why a contradiction develops between inside and outside, maybe the people can't understand putting protection on Comrades, but I found out the people understand more then they're given credit for. It's funny in away.

the things people say to you about what the people are ready for yet when you rap with a blood or women off the block they tell you what it is. Sule is the only blood outside who ever talked with an insight about what should be done. If a child knows why is it so hard for adults to except? How is Sule, he's a lively one so full of love. Sorry i won't be rapping with you & other comrades about organizational problem and consolidation but we'll continue to build and push from our end and hopeful some day we can come together. The supportive, and intelligence apparatus are the corner stones of the organization along with liaison (communications). Well i've written seven pages and now i've got to put in motion our next move and the stuff we'll need, ~~the~~
