MEMORANDUM:

March 15, 1977

TO: Dr. Don O'Neil

FROM: Gerald A. Miller *GAM*

Your memorandum regarding the use of the race codes on the student's PIR and the method by which they are determined and recorded was appreciated.

The data processible PIR was originated for use in USD 501 in 1967-68. At that time, the school system was somewhat reluctant to revive the recording of the student's race for various federally funded projects; especially when just a few years before, the State Department of Education had directed that race information should not be recorded on student records. The 1964 Civil Rights Act had been passed, but no official guidelines had been received concerning the legality of recording racial information. To my knowledge, the first Civil Rights Survey that our district filed was dated Spring, 1967. This data was determined by the school principal or teacher's "visual analysis". Later, the Race Code on the PIR was to be filled out by the principal - and the Race blank was below the double line - meaning that it would be filled in by office personnel only.

Copies of the instructions which accompanied the Civil Rights Survey forms from 1968-1976 are attached to provide a historical sketch of the evolution of the racial definitions. These have varied from ".....person considered in school or community to be of ....." (1968), ".....person considered by themselves, by the school, or by the community to be ....." (1969), to the current 1975 version which reads ".....a person having origins in any of the original peoples of....." with the special definition of Hispanic being "a person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin regardless of race".

The directions for filling out the Race Code appears in the Secretary's Handbook (see attachment - page 1 Rev. 8-75) which Demographic Services compiles and distributes. Note the underlined instructions regarding Blank #169 - Race Code which is to be properly coded by the parent at the time of registration. Therefore, I believe that the teachers have not been instructed regarding the proper procedure prior to the Kindergarten Roundup sessions by the school principal or the school secretary.

Please feel free to call on me for assistance if you have further questions. I would like to know more specifically which school the teachers represented so we might take remedial measures.
